The Bulgarian аз is written with a capital letter only if the sentence starts with it. If the sentence starts with a different word, always write аз with a small letter.

Аз съм от София.

Георги и аз живеем в София.

Вие is also used when Bulgarians are polite and it is always written with a **capital letter**.

Вие от София ли сте? Are you from Sofia?

Remember! You can omit the subject pronoun if it clear who is involved.
